## DEVELOPMENT AT GOLD REEF PROGRESSING

**Toggery Lease Showing Rich Gold Ore---  
Work of Sinking Several Other Shafts  
is Under Way, and Power Hoists  
Will Soon be on the Ground**

James Grimes, one of the operators of the Toggery lease came to town last night, and reports that the lease is looking better all the time. The shaft on the Toggery, which is on an incline, following the vein, which has a dip of about 80 degrees, is now down 105 feet, and drifting with the ledge has been commenced on this level. The ore shoot is fifteen inches in width at this point, and numerous small stringers outside of the main ore shoot seem to be converging toward a junction in the direction in which the drift is being carried. Ore has been sacked from the grass roots downward, and the whole fifteen inches of the main ore shoot is being sacked in the drift. This ore averages \$35 to \$200, as at points in the vein spots of phenomenal richness are encountered. The ore is free milling, and specimens taken from any part of the fifteen inches pans wire gold. The ledge has well defined walls, in which no break has as yet been discovered.

J. A. Wilson of the Nevada Belle property, in which a number of the Tonopah and Goldfield railway men are interested, has left a bunch of ore samples at the Alamo saloon which are interesting. The shaft on the Nevada Belle is rapidly going down, and while assays are not regarded as a conclusive test as to the value of the bulk of ore taken out of any property, it is interesting to note that an assay made a few days ago of samples taken clear across the vein showed values of \$139.60 per ton. Of this \$38.10 was silver, the balance gold. The ore greatly resembles that in the Mizpah mine.

The double compartment shaft which is being sunk on the Racine group of claims is now down thirty feet, with a five-foot ledge with excellently defined walls. The rock from the ledge shows values of \$16 per ton, the value principally in gold. The shaft will be sunk to the 200-foot level, and then crosscutting will be started to penetrate a couple of parallel ledges which have excellent surface showings.

Dr. Whitewolf of San Francisco,

who owns a group of eight claims at Gold Reef, has just made arrangements to have a single compartment shaft put down 200 feet. Two men are working on the property now, and the force will be increased as soon as a little more depth is reached. There is a ledge of fine milling ore—a blue silicate quartz—on this property, five feet in width and well defined. No test as to the values of the rock has been made as yet. There are several ledges on the Whitewolf property, and when the shaft reaches the 200-foot level crosscutting in an attempt to penetrate these will be commenced.

The shaft on the Kris Kringle property, owned by Onie Doherty and Tom Fleming, of this city, is down forty feet, and this also has a five foot ledge of milling rock, samples from across which show an average value of \$16 and better. This rock all pans free gold.

Within the next few weeks, we are authoritatively informed, there will be at least two gasoline hoists chugging away at Gold Reef, and there will be some notable improvements on the property. Some of the leasers have done enough development work and prospecting to convince themselves that the ore bodies are there, and arrangements are now being made for extensive development of the properties.

### ENTERTAINED IN HONOR OF MRS. BARTLETT

Mrs. W. B. Pittman entertained at her home Thursday afternoon at a farewell party given in honor of Mrs. George A. Bartlett, who leaves soon for Reno, where she will reside in the future. Mrs. Pittman was assisted by Mesdames George Thatcher, J. M. Fox, Arthur Raycraft and Miss Kathleen Brown. There were about forty guests present.

### PRETTY HOME WEDDING ON SATURDAY

Harry H. Atkinson and Miss Katherine Jackson were married yesterday morning at the home of the bride. The wedding was a quiet affair, only immediate friends of both parties being present. The Rev. Lloyd B. Thomas officiated. Following the ceremony a delightful wedding breakfast was served, at the conclusion of which the happy couple, accompanied by a number of friends, went to the depot, where they were showered with rice before leaving on the morning train. They will spend several weeks on their honeymoon trip and will visit Denver and Salt Lake and on their return will make their future home in this city.

At the last election Mr. Atkinson was elected justice of the peace on the Republican ticket, and is one of the most popular young attorneys in this city. The bride has resided in Tonopah for a number of years and has a host of friends here.

### WITH THE CHURCHES

**St. Mark's.**  
Services for Sunday, November 29: Holy communion, 8 a. m. Morning prayer, 11 a. m. Sermon: "Questing the Advent of Christ." Offertory solo, "I Trust in God" (Faure). Mrs. Lombard. ### C. M. McKillops TO INTERVIEW GRAND JURY

District Attorney P. A. McCarran and Deputy Sheriff Vall Pittman returned yesterday from Round Mountain, where they went to investigate the recent shooting. They brought in with them C. M. McKillops, who was bound over to the grand jury and is charged with assault with intent to kill. It was McKillops who shot a woman of the tenderloin of that camp named Ida Miller. The wound was not fatal, the bullet entering her breast and causing only a flesh wound. McKillops will be taken before the grand jury on Tuesday morning when that inquisitorial body meets.

### A NEW CARD AT BUTLER THEATRE

"My Uncle From Japan" was the new farce comedy presented at the Butler last evening, and it was a hit. The play drew crowded houses at both performances and every player was applauded. The song of "Tim" Murphy, entitled, "Highland Mary," was a scream, and had to be repeated several times. In fact all the songs were excellent, and the parts could not have been acted better. Sim Kerner in the part of the Dutch uncle was natural and his antics resembled those of a Milwaukee brewer. As usual Mildred Manning received an ovation, which is due her for she is certainly a favorite with Tonopah's theater goers. The play will be repeated tonight and tomorrow night. The play is from the pen of Al G. Flournoy, the popular comedian.

### DIVORCE GIVEN WM. H. DOWNS

William H. Downs was yesterday granted a divorce from Lillian Downs on the grounds of desertion. When on the stand Mr. Downs testified that his wife left him on the day they were married, which was over a year ago, and he has not seen her since. He was represented by H. W. Scheld.

The City bakery is now open from 6 a. m. to 8 p. m. Mizpah grill open all night. 11-24-6t

### PERSONAL MENTION

T. M. Michaels has returned from a trip to the coast.

Mrs. R. B. Davis and children returned yesterday from Mina.

Vall Pittman returned yesterday from a visit to Round Mountain.

District Attorney P. A. McCarran has returned from Round Mountain.

J. B. Giffen, assemblyman-elect on the Democratic ticket, is in from Manhattan.

Bert Smith returned Friday evening from a trip to the southern part of the county.

J. Grant Crumley of the Nevada Club, went to Blair yesterday morning on business.

Pat Carney, one of Goldfield's leading attorneys, came up from the south yesterday.

P. B. Kotelman returned to Rawhide yesterday, where he is interested in several mining companies.

Mrs. Henry Bartlett, who has been visiting in Tonopah, returned to her home in Round Mountain yesterday.

Rufus Thayer, of the law firm of Thayer and Steele of Goldfield, came over from that city yesterday on legal business.

Captain L. F. Long of the Tonopah and Goldfield railway returned yesterday from the coast, where he spent Thanksgiving.

Mrs. C. M. Meyers and child and Mrs. H. L. Gould returned to their homes in Clifford yesterday, after spending a week in Tonopah.

### DETAILS OF KILLING OF WALTER GOEPP

Regarding the details of the death of Mining Engineer Goepf, of which the Bonanza made brief mention Thursday morning, we have learned the following:

Walter Goepf, one of the best known mining engineers in the state, was thrown from a wagon Wednesday coming down the Lodi grade toward Rawhide, and almost instantly killed. In company with Edward Grady, a broker, and Frank Carpenter, a mining operator from Rawhide, the party had been making an examination of a property.

When they reached the top of the grade, Grady and Carpenter got out of the wagon and started ahead of the team down the hill. The horses were of the "bronk" breed and were wild. Just as the wagon started down the hill the brake gave way and the wagon went upon the heels of the team. Instantly they started at a wild run down the steep hillside.

Striking a big boulder at the side of the trail, the front wheel went to splinters, the shock throwing Goepf through the air for twenty-five feet, to strike head foremost upon a pile of big boulders. His skull was crushed and he died almost instantly. Walter Goepf was consulting engineer of the Royal Regent and Royal Tiger Mines company and made a record in the development of the properties that will live for all time.

### AN ADDITION TO HELENA TOWNSITE

Thomas G. Murphy, who has charge of the townsit at Helena, was in town yesterday and filed an addition to the townsit, at the auditor and recorder's office. Nearly all the lots in the Helena townsit have been sold and the demand has forced the company to make the addition.

### Banking is our Business

The sign "Bank" does not make a bank and is often misleading. It requires time, energy, close attention to business, a substantial capital and ripe experience in banking to make a bank. We claim, without blushing, all the essentials necessary to make our business that of banking, and tender our patrons a service thoroughly seasoned by years of experience, backed by a substantial capital and a large surplus.

**F. M. JENIFER PROMOTED.**  
Word was received in Tonopah yesterday of the promotion of F. M. Jenifer from the office of general agent at Goldfield to assistant traffic manager. W. R. Alberger of the Tonopah and Tidewater railroad, W. W. Keith, who has been the Tonopah agent of the Tonopah and Tidewater, will succeed Mr. Jenifer.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.
